THE PROCESS OF CHAMPIONS

Ripe agave are picked by hand and cooked in brick ovens

The juice (Mosto) is separated from the pulp and then fermented with the finest yeasts in open air tanks

Through double distillation, our traditional pot stills will render a distinguishing Blanco Tequila, our premium base

Distilled from 100% Tequilana Blue Weber Agave at Destiladora Juanacatlan, Jalisco. NOM 1551

The agave is grown in "Le Cienega" region under the surveillance and care of the Juanacatlan distillery farmers, a new terroir is born

Women in charge. Under a male dominated industry, our program is a leader in creating and holding 95% of job positions that empower women, not only seeking financial reward for their households, but to break the generational transmission of poverty and strengthen the social tissue thus building greater links amongst our community.

BLANCO

This is Tequila in its purest form, unaged by the barrel and clear, the true flavor from Blue Agave, sensitive silver, natural, fresh, light and attractive. A trendy smoothness to be enjoyed neat.

AÑEJO

Matured from the fields, our agave then processed as tequila will be patient to rest in barrels for 18 months to become a robust, smooth and bold Añejo. A seductive and experienced expression of our familia.

REPOSADO

Rested in white oak barrels for 6 months, our Reposado is unlike any tequila with a great balance among the immediate presence of caramel and the gentle flavors of blue agave. An untamed expression of tequila.
